Mission

The U.S. Green Building Council - St. Louis Regional Chapter will initiate, develop and accelerate implementation of sustainable building concepts, technologies and principles, that promote environmentally responsible, profitable and healthy places to live and work.

Purpose

The purpose of establishing the US Green Building Council - St. Louis Regional Chapter is to:

- Raise awareness of green building principles and practices within the planning, design, construction, real estate and finance communities and local government entities;
- Promote activities that advance green building and sustainable development and land use practices in the area;
- Collaborate with other environmental and building related organizations on programs and initiatives promoting mutual interests;
- Provide opportunities for members and the public to learn about green building principles and practices;
- Provide regularly scheduled opportunities for members to network with peers with similar interests.

USGBC

The **U.S. Green Building Council** plays a vital role in providing a leadership forum and an integrating force for the building industry. Membership is comprised of leadership in the following professional categories:

- Architectural, engineering, interior design, and consulting firms
- Building control service contractors and manufacturers
- Building owners, managers, users, and brokers
- Building product manufacturers
- Contractors and builders
- Environmental groups
- Financial and insurance firms
- Professional societies
- State, local and federal government
- Universities and research institutions
- Utilities

USGBC members developed **LEED™, Leadership in Energy & Environmental Design** Green Building Rating System for designing, constructing and certifying sustainable buildings. Based on well-founded scientific standards, LEED emphasizes state-of-the art strategies for sustainable site development, water consumption, energy efficiency, materials selection and indoor environmental quality.

For more information on the U.S. Green Building Council and LEED™ visit <http://www.usgbc.org>.

Annual Membership Dues

Membership to the U.S. Green Building Council - St. Louis Regional Chapter is open to any individual interested in the goals of the organization, not limited to USGBC corporate members. Local chapters receive technical support from USGBC, but currently do not receive financial support. Our success as a chapter is dependent upon local membership revenue. We are also seeking corporate sponsorship.
